

AMERICAN INTERSTATE BANK

Dear AIB Customer,

I am very pleased to report that, as of December 31, 2025, American Interstate Bank was found to be the top performing bank in the country, according to S & P Global Intelligence. This rating is for all banks with under \$3 billion in assets, which total 3,465 banks nationwide. There were no other Omaha/Metro area banks found in the Top 100 (full report attached). The numeric rating is of importance, but it is the repeated inclusion in the Top 100 listing that is a testament to AIB's continued commitment to consistently operate at the top of our industry, while allowing our customers to be unaffected by any of the varying issues causing financial stress in the banking system.

As a customer of AIB, you can be secure in the knowledge that your bank is financially sound, very well-capitalized, consistently recognized nationally and continues to operate with the same conservative philosophy that has been in place for the past 111 years of our existence!

We greatly appreciate your business and continued loyalty to AIB! We promise to continue providing the type of service to which you have become accustomed, as we strive to maintain our record of Exceeding Expectations since 1915.

Sincerely,

A handwritten signature in black ink, appearing to read 'Daniel Palmquist', written in a cursive style.

American Interstate Bank tops 2025 US small community bank rankings

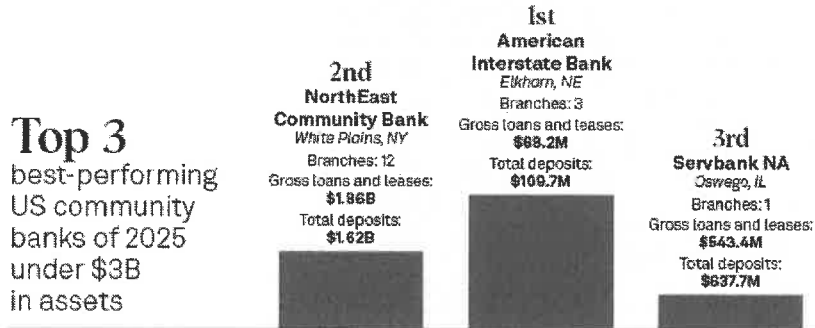

FINANCIALS RESEARCH

Wednesday, March 11, 2026 10:26 AM ET

By Zuhaib Gull and Zain Tariq
Market Intelligence

Elkhorn, Nebraska-based [American Interstate Bank](#) led S&P Global Market Intelligence's 2025 list of best-performing US community banks with assets of less than \$3 billion.

Data compiled March 2, 2026.
Source: S&P Global Market Intelligence.
© 2026 S&P Global.

American Interstate Bank, a subsidiary of [American Interstate BancCorp., Inc.](#), operates three offices in Nebraska — two in Elkhorn and one in Omaha. The bank ended 2025 with \$134.2 million in assets, \$68.2 million in gross loans and leases and \$109.7 million in total deposits.

The 110-year-old institution received the best overall performance score, outperforming the median of the top 100 small community banks and all eligible banks nationwide in all eight metrics.

About this analysis

To compile this ranking, S&P Global Market Intelligence calculated scores for each company based on eight metrics: pretax return on average assets, net interest margin, efficiency ratio, three-year average operating revenue change, eight-quarter average deposit change, nonperforming assets and loans 90 days or more past due as a percentage of total assets, net charge-offs to average loans and leases ratio, and adjusted tangible common equity to tangible assets ratio weighted at 20%, 10%, 10%, 10%, 10%, 15%, 10% and 15%, respectively. Each company's standard deviation from the industry mean was calculated for every ranking metric, weighted, then combined to derive a performance score. To help normalize the data and mitigate the impact of outliers, caps and floors were applied for each metric.

Criteria for the ranking included a gross loans and leases to total assets ratio of at least 33% with no more than half of those loans in credit cards; a leverage ratio of at least 5%; no active severe enforcement action; a result other than "substantial noncompliance" or "needs to improve" in the bank's most recent Community Reinvestment Act exam; a yield on loans and leases and a net interest margin of no more than three times the industry medians of 6.34% and 3.34%, respectively; and no more than half of the entity's revenue coming from nontraditional banking activities. Additionally, industrial banks, nondepository trusts, companies with a bankers' bank certification and banks with parent companies that have total assets of \$3 billion or more were omitted. Data for the largest subsidiary was used where consolidated data was not available for any of the periods in the analysis.

Based on the above criteria, 3,465 banks and thrifts were eligible for ranking.

American Interstate Bank's 2025 return on average assets before taxes and extraordinary item adjustments was 4.32%, more than 3x the median of 1.29% for the 3,465 banks analyzed. The bank's net interest margin of 5.74% exceeded the median by 205 basis points. American Interstate Bank improved its yield on total loans and leases by 41 basis points year over year to 7.70% and reduced its cost of funds by 5 basis points to 0.60%.

Among the top 100 best-performing small community banks, American Interstate Bank reported the third-best efficiency ratio, of 27.83%, with operating expenses of \$2.0 million and operating revenue of \$7.2 million for 2025.

The bank ranked fifth in the [2024 ranking](#) of best-performing small US community banks. It was also the [top-ranked](#) Midwest community bank in 2024. In addition, American Interstate Bank [ranked ninth](#) among small US community banks for best deposit franchise as of June 30, 2025.

100 best-performing US community banks of 2025 under \$3B in assets

Based on financials for the year ended Dec. 31, 2025

S-Corps: ● Yes ● No

Data compiled March 2, 2025.

ROAA = return on average assets; NPA = nonperforming asset; PD = past due; NCD = net charge-off.

S&P Global Market Intelligence used eight diversely weighted metrics to identify top-performing US community banks under \$3 billion in total assets. The mean for each metric was identified across the dataset, and standard deviations from these means were calculated for each metric for each institution and aggregated to determine a relative performance score. Scores for each metric were also capped to help normalize the data.

Criteria for the ranking included a gross loans and leases-to-total assets ratio of at least 33% with no more than half of those loans in credit cards; a leverage ratio of at least 5%; no active severe enforcement action for the institution; a result other than "substantial noncompliance" or "needs to improve" in the bank's most recent Community Reinvestment Act exam; yield on loans and leases and net interest margin of no more than three times the industry median of 6.54% and 3.65%, respectively; and no more than half of the entity's revenue coming from nontraditional banking activities. Additionally, industrial banks, nondepository trusts, companies with a bankers' bank certification, and banks with parent companies that have total assets of \$3 billion or more were omitted.

¹ Return on average assets before taxes and extraordinary item adjustments is net of dividends on preferred stock.

² Adjusted tangible common equity to tangible assets ratio is calculated as tangible common equity - unrealized gain or loss from held to maturity securities + loss reserves - nonperforming assets - loans 90 or more days delinquent but still accruing interest divided by tangible assets.

Rankings are based on regulatory filings. All ranking metrics must have been reported for company to be included.

Data for the largest subsidiary was used where consolidated data was not available for any of the periods in the analysis.

White Plains, New York-based [NorthEast Community Bank](#), a unit of [Northeast Community Bancorp Inc.](#), was the second-best-performing US community bank with less than \$3 billion in assets for the second consecutive year. The bank, which operates 12 branches in New York and Massachusetts, completed its mutual holding company reorganization in 2006 and had a second-stage conversion in 2021.

In 2025, NorthEast Community outperformed the median for the top 100 best-performing small community banks in all metrics except the eight-quarter average deposit change. The bank's net interest margin fell 34 basis points year over year to 5.23% in 2025 but remained above the 3.69% median for all banks in the analysis. Total loans and leases accounted for over 90% of the bank's total assets at the end of 2025. It had significant exposure to construction and land development, with the segment representing roughly 72% of the bank's total domestic loans and leases as of Dec. 31, 2025.

Oswego, Illinois-based [ServBank NA](#) ranked third, outperforming the median in five of eight financial metrics among the top 100 institutions. The bank reported the highest three-year average operating revenue change of 403.1% among the top 100 institutions. [ServBanc Holdco Inc.](#) became the parent of the bank after acquiring [Allied First Bancorp Inc.](#) on Sept. 15, 2022. Formerly named Allied First Bank SB, the unit increased its asset size by 2.5x to \$995.1 million over the three years ended Dec. 31, 2025. Operating out of a single branch, the bank is now subject to a pending merger between its parent, ServBanc Holdco Inc., and Watsela, Illinois-based [IF Bancorp Inc.](#)

The two holding companies received regulatory approval to complete the deal in January and are expected to close the transaction in the first quarter of 2026. Servbank NA will absorb [Iquoia Federal Savings and Loan Association's](#) operations, which will nearly double its asset size.
